

**TYTON**

Paint Protection Film

**THE MIGHTY PROTECTION**

Designed in USA to perform in India

No Residue on Peeling

Tough and Strong

Wear and Tear Resistant

Ease Of Cleaning

High Optical Clarity

Strong Weather Resistance

Solvent Free

Protects From  
SAND AND DUST

Protects From  
SWIRLS DURING WASH

Protects From  
RANDOM SCRATCHES

Protects From  
ROCK CHIPPING

Protects From  
LOW SPEED SCRAPES

Protects From  
ACID RAIN

Protects From  
BIRD BOMBS AND SAP

*PRODUCT INTRO PART 1-1*

*Paint Protection Film Economic Series*

# **TY Series Features**

**Economic Series-TY3**

1. Top Hydrophobic Coat
2. Heat Self-Healing
3. Imported TPU Based Material
4. Protects Car Surface from Stone-Chips  
Abrasion and Debris
5. Highly Resistant To Swirls/Scratches
6. High Clarity and Gloss

- Thermoplastic Polyurethane (TPU) Film
- Surface PET Protection liner
- Acrylic Pressure sensitive Glue
- High Performace Heat-Healing Coating
- Bottom PET Release Liner

# Economic Series

TY3 Super Cost Performance

Model	TY3 Thickness
Thickness (TPU)	130±10µm
Total Thickness	170±10µm
TPU Raw material Brand	Merquinsa
Hydrophobic Property	R9-R10
Heat Self-Healing	100 50-70°C
Warranty	3 years

## SELLING POINT

- Strong Resistance To Yellowing
- To Corrosion Resistance, Perform Well in Harsh environment
- Excellent Gloss Coating
- Specially Designed For White Cars
- Very High Cost Effective

**100%**  
Heat Self-healing

**3 years**  
Warranty

**Super Anti  
Yellowing**

*PRODUCT INTRO PART 1-2*

*Paint Protection Film High Performance Series*

# **High Performance Series Features**

*High Performance Series-TY5*

# Selling Point

- Enhanced brightness Gloss greater than 94
- Hardness is increased to 90A, Stronger scratch resistance
- Carefully selected TPU material, more durable
- Yellowing resistance, oxidation resistance, no distortion
- Excellent corrosion resistance
